

Senior Microsoft Dynamics 365 CRM Consultant

INKUBIT specialises in the introduction and further development of solutions in the areas of Microsoft Dynamics 365 (CE/Sales) and BI & Analytics (Power BI). As a full-service provider, INKUBIT covers the complete application life cycle from consulting and introduction to implementation and maintenance of the systems. We support companies in developing their full potential and continuously increasing their company value. With our interdisciplinary knowledge, we support our customers in becoming a high-performance company in the age of digital transformation. As an IT and consulting company founded by digital natives, we know the challenges of our generation.

Your main tasks

As a Senior Consultant in the area of Microsoft Dynamics 365 CRM (Customer Engagement) your main tasks are the sustainable consulting of our customers in the field of digital customer relationship processes. Primarily you are involved in the development and specification of technical and functional system requirements as well as in the analysis of existing business processes and the derivation of a valid solution concept. You will actively support our customers in all phases of a CRM project - from requirements analysis, creation of functional specifications, solution design, prototyping, testing and international rollout. In addition, you will also confidently conduct workshops and presentations for our customers. Furthermore, you will take responsibility for specialist topics and act as a coach for colleagues. For you, digitization is much more than bits and bytes - dedication, passion and fun at the same time.

Area of Operation:
Consulting
