

Senior Microsoft Dynamics 365 CRM Developer

INKUBIT specialises in the introduction and further development of solutions in the areas of Microsoft Dynamics 365 (CE/Sales) and BI & Analytics (Power BI). As a full-service provider, INKUBIT covers the complete application life cycle from consulting and introduction to implementation and maintenance of the systems. We support companies in developing their full potential and continuously increasing their company value. With our interdisciplinary knowledge, we support our customers in becoming a high-performance company in the age of digital transformation. As an IT and consulting company founded by digital natives, we know the challenges of our generation.

Your main tasks

- Conception and development of customer-specific application extensions
- Integration of Microsoft Dynamics 365 (CRM / CE) into the software landscape of our customers
- Development of new product solutions based on Microsoft Dynamics 365 (CRM / CE)
- independent testing, quality assurance and documentation of own development work
- Assumption of responsibility in agile development projects
- Creation and implementation of interfaces and data migration

Area of Operation:
Software Engineering

Working hours:
Full-time / Part-time
